CP06-54-000

Dear Commissioner Salas:

I am pleading with you to stop the Broadwater Project and protect our Sound, Long Island Sound. Not only is the project bad for the Sound, but allows further infiltration into our economy by a foreign corporation or in this case two foreign corporations.

Why are we always fighting for the Sound? We have just gained a victory, to stop the dumping of waste into the Sound, and here we are with another battle. **ENOUGH ALREADY..**

To restrict use of the Sound to the thousands of tax paying residents by creating a "**PUBLIC NO ACCESS ZONE**" is unacceptable. This project would bring danger and lifestyle changes to residents, have a negative effect on tourism and endanger marine life now present in the Sound.

To allow this project to go forward would set a dangerous precedence for further industrialization of Long Island Sound. **PLEASE DO NOT LET THIS HAPPEN!**

I would appreciate a written response from you, outlining the action you plan to take in this matter.

Sincerely,

Agnes J. Jones
